As renewable energy adoption accelerates globally, Lisbon emerges as a strategic hub for innovative containerized energy storage systems. This article explores how modular energy storage solutions ...

Portuguese energy giant GALP has announced construction of five battery projects, with a total capacity of 74 megawatts (MW), to store solar ...

Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and Portugal, marking a major step in its clean energy strategy.

The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors and the ...

Manufacturer of photovoltaic containers, BESS systems, mobile energy storage, and containerized energy storage solutions.

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and containerized BESS solutions.

CorPower Ocean has successfully installed its first commercial scale WEC (Wave Energy Converter) in northern Portugal, as it accelerates towards making wave energy a bankable technology for mass ...

Portugal's battery storage boom steadies prices, slashes blackouts and opens tech roles. Discover how new policies could reshape your power bill.

Portugal's energy-storage market is entering a new stage of maturity, combining grid-scale standalone batteries and hybrid (co-located) systems with renewable plants.
