MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

This system can help you achieve energy independence, getting off the diesel or utility grid and providing a free, green source of electricity for your life. PVMARS's 2MWh energy storage system will ...

Data Logging Stick allows you to receive information from solar power system, in order to keep you informed about the situation of your PV system, and the ...

SolarBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

An Off-Grid Solar Container delivered to the property before construction began. The container provided clean, consistent power throughout the entire build process--running saws, drills, welders, and site ...

2MW on off grid container solar power system This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and ...
