HighJoule's scalable, high-efficiency 2MWh energy storage system provides reliable, cost-effective solutions for commercial, industrial, and utility-scale applications.

Adopting 40-foot non-walk-in container design, the highly integrated and modular energy storage unit inside the container is convenient for transportation, installation and maintenance.

Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid applications, peak ...

Highly integrated design, easy to transport, install, and maintain, with real-time status monitoring and fault logging. Intelligent modularity, this energy storage ...

This 500kW / 2MWh BESS container integrates lithium battery racks, PCS, BMS, EMS, and safety systems in a 40FT container for fast deployment, stable operation, and scalable energy storage.

Prostar PESS C& I series container energy storage system offers scalable 1MWh-2MWh capacities within a 20-foot high-density design, integrating isolation transformers to ensure grid stability and ...

A high-performance, all-in-one, containerized battery energy storage system developed by Mate Solar, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and resilience.
