-----

OWELL 3KW horizontal axis wind generator. Wind wheel: 3 blades wheel, ...

Aeolos 3kW vertical axis wind turbine is a low start wind speed, quiet, safe and reliable vertical wind turbine. We use outer rotor three-phase generator with a ...

The disk-type air-core permanent magnet generator produced by our company has many features such as low speed rating, low wind speed starting, small size, low energy consumption, light weight, ...

Light weight, high powered, and encased in a rugged housing for long life. All of our wind turbines can be installed on-grid or off-grid. For an on-grid connection we use Inverters specifically matched to our ...

The 3KW 5KW Vertical Axis Wind Turbine is engineered for optimal energy generation, making it an ideal solution for homes aiming to effectively utilize Wind Energy. Its innovative design ...

The 3kW vertical axis wind turbine is a low start wind speed, quiet, safe and reliable vertical wind turbine. We use outer rotor three-phase generator with a 1.5m/s start wind speed. It can be used for ...

The SD3 small wind turbine is rated at 3kW, making it ideally suited for remote access sites, small domestic properties, telecoms, light industrial and ...

Rexco Technology, located in Wuxi, is a supplier of wind turbines and related industries. Our cooperated factory specializes in the design and production of ...

This equipment can fully make use of wind power to recharge a battery, and also can saved energy into ac source alternating current. Without the necessity of fuel, the GREEF wind power generator is ...

Review the generator specifications to find its rated wind speed, where it produces the maximum power. If your area consistently experiences ...
