Our fleet of energy storage solutions operate at high efficiency, allowing you to get more power out of every drop of fuel. They also operate silently, which makes ...

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and all control, ...

This containerised and mobile Battery Energy Storage System (BESS) serves as a flexible and scalable power supply solution on board or in port. The system ...

The energy storage unit from KONGSBERG is specifically designed for demanding marine applications and optimised for both hybrid and pure electric vessels.

This project is being realized with the support of the Swiss Federal Office of Energy.

Enhance your solar energy system with our Containerized Energy Storage High Voltage 560v Lithium Iron Phosphate Battery. Designed to provide a high ...

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.
