---

The national football stadium of Norway, the Ullevaal in Oslo, has incorporated 1,242 vertical bifacial solar panels on its roof, becoming the largest ...

The Ullevaal Stadion in Oslo has been equipped with something the national team might envy: a game-changing renewable energy facility. Installed ...

Our 5MWh energy storage container integrates a multi-level fire protection system. It features PACK-level immersion for instant thermal runaway suppression, container-wide aerosol firefighting, and a ...

This research study delves into the solar energy potential and capacity in Norway, aiming to assess the viability of solar power integration in the country's urban landscape.

We want to be a driving force to ensure more climate friendly solutions for Norwegian sports facilities. The energy storage system at Bislett stadium ...

We manufacture high-quality stationary and mobile Battery Energy Storage Systems (BESS) designed and built in Norway. Our systems deliver reliable ...

Latest developments in solar PV technology, energy storage advancements, commercial power solutions, and industry insights from our team of renewable energy experts across Poland.

Norwegian vertical PV system provider Over Easy Solar deployed a 248.4 kW installation on Norway's national football stadium. The system ...

In May 2024, our partner Solenergi FUSen completed the largest Over Easy Solar installation to date--a 248.4 kWp solar system on the rooftop of Norway's ...

# 5MWh Photovoltaic Energy Storage Unit for Norwegian Sports Venues

The Solition Mega Five is a high capacity 5MWh energy storage system designed for maximum efficiency, safety, and simplicity. With advanced liquid cooling, AI-driven diagnostics, and 95% system ...
