In Chad, in 2020 solar power systems were installed in 150 health facilities with a focus on pre- and antenatal care for women, childbirth and medication storage, ...

New solar systems are bringing reliable, clean energy to schools and hospitals in Bor, South Sudan, improving education and healthcare.

(JUBA) - Juba Military Hospital has officially launched a new 150 kWp solar photovoltaic system supported by a 217.62 kWh battery storage unit, in a development expected to transform energy ...

The hybrid solar-plus-storage project is designed to prioritize solar generation and battery use, while keeping diesel generators only as a last resort. The system is being hailed as a ...

Hybrid solar energy systems equipped with battery bank storage have been implemented at seven healthcare centres across South Sudan.

South Sudan is to have a second hospital powered by solar energy, funded through a Peace Renewable Energy Credit (P-REC) transaction. The largest P-REC transaction in South ...

The installation will yield multiple benefits including ensuring that medical operations, procedures and laboratory tests are undertaken, improving ...

At Gurei Primary Health Center, in Juba, South Sudan, a new solar system is powering not only the lights and equipment crucial for quality ...

The UN children's fund (UNICEF) has connected over 100 health and nutrition facilities with constant solar power, aimed at reducing reliance on fuel ...

5MWh Solar Energy Storage Unit from South Sudan Used in Hospitals

The projects involved the design, supply, installation, and commissioning of hybrid systems incorporating photovoltaic (PV) systems, diesel generators, and standalone solar street ...
