TotalEnergies is constructing a 12 MW solar canopy in a long-term parking lot at John F. Kennedy (JFK) International Airport in New York. The ...

The integration of photovoltaic power plants appears to be a relevant solution for providing decarbonized energy, especially as airports have vast open spaces. ...

Governor Kathy Hochul today announced that the Port Authority of New York and New Jersey and the New York Power Authority began ...

In May 2016, Darwin International Airport (DIA) flicked the switch on its new 4MW (megawatt) photovoltaic (PV) solar array, which now provides a significant proportion of the airport's power.

Travelers taking off and landing at Dulles International Airport outside the nation's capital will soon see an array of 200,000 solar panels laid ...

Developed in partnership with the New York Power Authority (NYPA), the JFK International Airport Solar Photovoltaic Project will generate approximately 13 MW of onsite solar and ...

DENVER - Oct. 4, 2021 - Denver International Airport (DEN) is expanding its industry-leading renewable energy portfolio. Two new solar projects will be built near 114th Avenue and Trussville ...

As part of nearly \$268 million in grants, about \$92 million will go to 21 airports for solar panels, electric buses, charging stations and electrification studies; investments that support good ...

This paper explores the techno-economic benefits of integrating hydrogen supply, electric auxiliary power unit (APU) of aircraft, electric vehicles, photovoltaic energy (PV), and battery storage ...
