This Order amends the Planning Act 2008 (c. 29) (" the 2008 Act ") to reintroduce onshore wind generating stations into the definition of nationally significant infrastructure projects under the...

The proposals seek to make two changes to existing legislation in order to improve the planning system and unlock new infrastructure required to support decarbonisation of the power sector.

In essence, this order would enable onshore wind projects over 100 megawatts and solar projects over 50 megawatts to be considered under the nationally significant infrastructure projects ...

Anker SOLIX is your trusted source for renewable energy solutions. Shop portable power stations, solar ...

When we bought our unit, we were supposed to be part of Surveyors extra 200 watt solar panel offer, but the trailer only came with 200 watt of factory installed solar panels.

I'm still building on this guide, mostly adding in the locations of notes and details about what can be done in each location. This guide lists all ...

They are different from most building-mounted and other decentralized solar power because they supply power at the utility level, rather than to a local user or users.

Like any other Angling Club with a facility like Hunters Pool, the members and committee were constantly concerned about the Summers ahead, usually from ...

Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area ...
