EcoDirect designs and supplies solar + battery projects in Micronesia. Our team has the tools and experience to get your next project designed and delivered.

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

We specialize in lithium batteries, stacked batteries, small household batteries, solar cells, large industrial batteries, energy storage batteries, battery cabinets, backup power supplies, photovoltaic ...

A liquid-cooled energy storage system uses coolant fluid to regulate battery temperature, offering 30-50% better cooling efficiency than air systems. Key advantages include compact design, uniform ...

Discover how advanced energy storage batteries are transforming Micronesia's power infrastructure, enabling renewable integration and grid stability in remote island communities.

With extensive experience in outdoor cabinet design and industrial-grade manufacturing, Cytech develops energy storage battery cabinet solutions that align with global safety standards and ...

Learn about LZY's cutting-edge products, from mobile solar PV containers, photovoltaic glass, and BESS power conversion systems.
