Chile is set to build its longest power transmission line, as it looks to support its transition to clean energy.

Our cabinets can be fitted with or without climate control and are engineered for efficiency, offering precise temperature regulation to prevent overheating. ...

The 5MWh 20 Liquid-Cooled Energy Storage DC Cabin is a high-performance energy storage solution designed for large-scale applications, including renewable energy integration, peak shaving, and ...

A unique cabinet solution for applications that require engineering services. Our engineering team will work with you to create a cabinet design to meet your requirements for the data center.

Converter - Boost System Figure 3. 2.5MVA Transformer+12*215kW PCS+MV cabinet

The construction of this plant was long delayed by opposition from local residents and environmental activists, but it finally began operations in 2004, the year when it also got the approval from Chile's ...

HuiJue's outdoor weatherproof enclosure cabinet box solutions are developed for demanding field applications where stability, safety, and thermal efficiency are essential for continuous operation.

Plans to invest \$USD 2 billion in large-scale energy storage by 2026 in the northern Atacama desert, in addition to 5.4 GWh of storage already in the procurement pipeline for 2027-2028. Projects with ...

The project features a 2.5MW/5MWh energy storage system with a non-walk-in design which facilitates equipment installation and maintenance, while ensuring long-term safe and reliable operation of the ...

Since 2019, it has adjusted its strategic plan and shifted its development focus to the field of new energy, fully preparing for industrial transformation by increasing research and development investment.
