Utility Storage 5 MWh is leading the way in the utility-scale energy storage sector. Housed in a 20 feet container, this advanced system boasts an impressive 5 ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from single asset control to complex microgrid and utility environments.

Our products ensure reliability and performance for solar photovoltaic, battery energy storage, and EV charging systems. We hold certifications from renowned ...

Pre-installed battery cells, transported as a complete cabinet, no on-site installation Independent PACK maintenance window, providing easy maintenance and high efficiency

With a compact footprint and high energy density, the DC cabin maximizes energy storage capacity while minimizing space requirements. Equipped with an intelligent energy management system, it ...

Explore HyperStrong energy storage products: liquid-cooled BESS containers, outdoor cabinets, AI platform, and system controls (BMS/EMS/PCS).
