The new EXpressure cabinets are revolutionising the science of explosion protection. They are equipped with grids made from stainless steel wire mesh in the walls through which pressure flows in the event ...

Kleev's explosion-proof enclosures are meticulously engineered to house various types of electrical and electronic equipment. These enclosures are designed not ...

where difficult conditions are found, including: Chemical and petrochemical industries Offshore energy prospecting and production The pharmaceutical market Grain hand.

Whether it's a home setup, a custom-engineered cabinet, or an enterprise-scale data center, our team combines the experience and support required to deliver solutions that perform exactly as needed.

These racks and server enclosures are designed to support mission-critical data center applications, providing exceptional security, airflow, and access management.

Keeping electronics cool and enclosures pressurized while minimizing potential ignition sources are three critical factors to improve safety in hazardous locations by reducing explosion risk.

Our selection of explosion proof and hazardous location enclosures can be manufactured to the size and specifications that you need for your environment, crafted from 304 and 316L stainless steel with a ...

Empty enclosure prepared for installation of the ET 200iSP. II 2G Ex eb IIC Gb size (WxHxD): 650x450x230, for max. 15 I/O modules. cable entries: 2x M32 power supply, 4x M20 bus cables and ...

Combination: This explosion proof control station includes explosion-proof electric control box unit (fixed size) + increased safety junction box unit (fixed size).

Explosion-proof data center cabinets for IoT base stations

With the Nexpan cabinet, we ensure you will have the neatest and most efficient data center cabinet in the market. The flexible modular design and our vast ...
