Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

Solarfold(TM) features a patented dual-rail guiding mechanism, 40% higher energy density, automated deployment in under 6 hours, and superior weather resistance. Unlike traditional solar containers, ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

The solar container seamlessly switches between grid-connected and off-grid modes in under 10 ms, ensuring reliable power at all times. Pre-configured hybrid controls and low maintenance ...

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any ...

Balancing efficiency, durability, and space will yield the most reliable power supply for marine adventures without frequent maintenance or ...

HighJoule containers are designed to operate in temperatures ranging from -40°C to 55°C and can withstand extreme conditions such as ...
