The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

The UE All-in-One 50kW ESS Hybrid System is a high-performance integrated solar and battery storage solution designed for commercial and industrial distributed energy applications.

With its integrated MPPT for solar input and ultra-fast grid switching, this product delivers a seamless, safe, and efficient solution for energy arbitrage and reliable mission-critical backup.

With 100kW PCS and 215kWh of LiFePO₄ battery storage, it delivers robust, efficient, and versatile energy management. This solution integrates advanced BMS and EMS technologies to provide real ...

This achieves an integrated "PV + Energy Storage" solution. The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, ...

This product is mainly suitable for industrial and commercial microgrid energy storage solutions, and is very efficient and reliable for small and medium-sized enterprises and businesses.

With its integration of high-performance batteries, the Energy Cabinet guarantees unparalleled reliability and efficiency, meeting the most rigorous industrial standards.

High-efficiency photovoltaic integrated energy storage cabinet for tunnels

Whether for industrial and commercial energy storage, microgrids, emergency backup power, or photovoltaic-storage-charging integration, Imax Power can provide customized solutions, ...
