The difference between "automatically" and "in an automated manner" should then be clear. The "manner" or the "tasks" correspond to the process, and thus are "automated". The "done tasks" are ...

Google gives me support from 19,200 on "is done fully automatically" and 35,200 on "is done fully automatic";.

To me, while this does indicate the type of service that is performed at regular intervals, it does not by-itself unambiguously indicate the recurring nature of an appointment. If someone says ...

As per the origin, the dictionary reports it's 1940s, from the blend of automatically and magically. The meaning of the word is different from the meaning of automatically, and the word is generally used in ...

The sentence would be as follows: I don't believe you should do X, but that does not automatically mean that I think you should do Y. Even a re-arrangement of the sentence would be ...

In technical writing, when describing how the software performs the action of completing a field on a screen, do you describe the field as being "automatically populated" or just "populated"? Does "

The Vice-Chair will become the Chair automatically after 3 years. As a result, the elections are held every 3 years only for the Vice-Chair position. So, if I am elected a Vice-Chair for ...

When you are trying to say that something is automatically filled in, you use the word autofill, or if you were using past tense, autofilled. I see 3 main ways that people use it: auto fill / auto

I wouldn't say automatically; that particular word's definition is overloaded. One might think that I came home and tended to my laundry without thought. Instead I would like to describe this ...

How to automatically store photovoltaic panels

I don't think it's a feature of the OP's mail reader, because it's not automatically inserted, but it's possibly a usage local to a certain group of people (maybe a workplace or academic ...
