Learn how to safely disconnect solar panels with our step-by-step guide, covering essential tools, safety precautions, and installation tips.

Overview  
Cleaning the Panels and Bulbs  
Restoring Cloudy Panels  
Removing Battery Corrosion  
Removing Battery Corrosion  
Wipe loose debris off the panel and bulb with a damp cloth. Built-up dirt or dust can inhibit the light's performance. Lightly dampen a cloth or paper towel. Then rub the panel to remove loose debris. If you clean your panels monthly, then this may be all you need to clean them. Make sure to squeeze out the cloth or sponge before wiping the bulb. Water could damage the electronics if it drips into the panel. See more on [wikehow](#)
