Inner Mongolia Energy Group has turned on a 1.6 GW solar project in Bayannur, Inner Mongolia, using inverters from China's Sineng Electric.

Hinggan League Photovoltaic Power Station is located in Arilinyihe Village, Debosi Town, Horqin Right Front Banner, Inner Mongolia. The project was started in April 2016.

Compared to previous solar power station projects, Lyu said that the team cut down on changes required to initial renderings by 40% and was able to wrap up the design process six weeks ahead of ...

In Chaideng village in Ordos city, Inner Mongolia autonomous region, 3.46 million blue solar panels stretch across the desert, covering 30 square ...

Inner Mongolia Kubuqi 2000 MW Desert Control solar power plant is an operating solar photovoltaic (PV) farm in Duguitala Town, Hanggin Banner, Ordos, Inner Mongolia, China.

Accelerate the research on pollution control issues in the recycling, utilization and disposal of wind power and photovoltaic equipment, and explore the development of technical standards for ...

At the China General Nuclear Power Group (CGN) Keyouzhong Banner Integrated Project of Desertification Control in China's Hinggan League, Inner Mongolia, high-quality forages such as ...

Fighting against sandstorms and combating desertification, rows of photovoltaic arrays have brought infinite vitality to once the most barren desert and sand dunes. For photovoltaic ...

Workers from CHN Energy Inner Mongolia Company dedicated their time and effort to transform the desolate landscape into a remarkable "blue ocean" of photovoltaic panels. After more ...

Inner Mongolia photovoltaic panel disassembly

An aerial drone photo taken on Sept. 2, 2025 shows workers installing photovoltaic panels at a new energy base in Kubuqi Desert, north China's Inner Mongolia Autonomous Region.
