We represent Ireland and Northern Ireland's energy storage industry bringing together exciting new technologies and innovations that will help decarbonise ...

Statkraft, the largest producer of renewable energy in Europe, has launched Ireland's first ever four-hour grid-scale Battery Energy Storage System beside its windfarm at Cushaling in Co...

Statkraft announces it will build Ireland's first four-hour grid-scale battery energy storage system (BESS) in Co. Offaly, co-located with Cushaling ...

Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland's fledgling renewable energy sector and ...

Electricity storage systems (ESS) are a means of addressing this issue by capturing excess energy during peak production periods and releasing ...

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to ...

Large battery storage units are now playing a bigger role on Ireland's electricity system, after a large change introduced by EirGrid and its partners last year. Before November 2025, grid ...

The Electricity Storage Policy Framework presents 10 government actions to support the role of electricity storage systems in Ireland's energy transition, identifying the key stakeholders and ...

Energy storage systems are vital to Ireland's renewable ambitions. Learn how batteries, long-duration storage and grid upgrades will help deliver clean power

Battery energy storage helps stabilise grid fluctuations and reduce electricity price volatility, enabling greater

Ireland energy storage systems

integration of renewables. These systems are central ...
