The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

Key Features
oQuick battery-swap
oData monitoring
oEfficient operation
oAnti-Theft Tracking
oIntelligent management
oSafety protection
oPerformance guarantee ...

Explore battery charging cabinets designed for safe storage and charging of lithium-ion, lead-acid, and rechargeable batteries. Find industrial-grade solutions.

It is suitable for use in microgrids, in rural areas, in remote areas, or in large-scale manufacturing and farms, as well as for charging stations for electric vehicles.

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, temperature control system and monitoring system.
