-----

Are Longi solar panels good in low light? Yes, thanks to high-quality monocrystalline cells and low internal resistance, Longi panels perform well in cloudy or dawn/dusk conditions compared ...

A: 12-year product materials and workmanship warranty and 25-year linear power output warranty.B: Anti-PID (Potential Induced Degradation) performance and ...

LONGi had initiated carbon reductions with green supply chain in solar industry to facilitate low carbon economic development and realizations of climate goals. LONGi joined the initiatives of RE100, ...

This comprehensive guide compares verified lightweight solar technologies with LONGi's premium X10 series. You'll discover real ...

The new Hi-MO X10 Light Module based on HPBC 2.0 cells was launched by LONGi with 24.8% efficiency and 42% weight reduction to ease rooftop solar installation.

China -- LONGi has unveiled a lightweight solar module designed to address installation challenges on rooftops with limited load-bearing capacity, a factor that prevents an estimated 30% of ...

On August 15, 2025, LONGi launched the Hi-MO X10 Light design Module, officially targeting the low-load C& I market.

This new module promises a stronger power generation performance, with technological advances that lend themselves to the rooftop ...

At just 7.2kg/m<sup>2</sup>, it weighs more than 30% less than conventional modules, setting a new benchmark for lightweight, high-efficiency solar. The product was first introduced in China in May ...
