Ozzies Module Handler is a specialized equipment designed to safely and efficiently lift, handle, and place solar panels.

The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in ...

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville ...

This collaboration aims to significantly increase overall productivity by reducing the costs of solar panel installation by up to 20%. The ...

GEDA Solarlift is a reliable device on every construction site to transport and assemble solar panels and photovoltaic systems securely. The ...

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool ...

The FUEL Solar Lift is a fully manual lift that is conveniently operated on a standard aluminum extension ladder. It takes less than 30 seconds to safely and easily lift ...

Specially designed with a custom carrier that functions as a cargo receptacle, ...
