-----

The dataset comprises measured PV power generation data and corresponding on-site weather data gathered from 60 grid-connected rooftop PV ...

The Solar Power Generation Data dataset provides synchronized inverter-level AC/DC power and yield measurements together with plant-level ...

Browse or search this comprehensive listing of data and tools for analyzing photovoltaic (PV) and concentrating solar power (CSP) technologies, solar grid and systems integration, and ...

The proposed model of annual average power generation of solar photovoltaic systems can accurately assess the annual power generation and power generation efficiency of photovoltaic ...

Solar power generation and sensor data for two power plants. This data has been gathered at two solar power plants in India over a 34 day period. It has two pairs ...

System data is analyzed for key performance indicators including availability, performance ratio, and energy ratio by comparing the measured production data to modeled production data.

Newsletter The International Renewable Energy Agency (IRENA) produces comprehensive, reliable datasets on renewable energy capacity and use worldwide. Renewable energy statistics 2025 ...

Estimates the energy production and cost of energy of grid-connected photovoltaic (PV) energy systems throughout the world. Data collection for the NSRDB is a ...

PV-Live: This dataset provides real-time data on solar energy generation in the United Kingdom. It includes data on the total amount of solar energy generated, ...
