This demonstration home by SoCalGas is a first of its kind, using solar, storage, an electrolyzer, and the Generac ARC microgrid controller to convert solar energy to hydrogen.

EMerge Alliance, along with its industry partners, each year builds an operating microgrid that is displayed at the RE+ renewable energy conference. ...

Trina Solar has officially commissioned its integrated photovoltaic (PV)-storage-charging-discharging microgrid demonstration station at its ...

Swift Solar, a U.S.-based manufacturer of perovskite tandem solar cells, announced its technology was deployed in a U.S. Department of Defense cyber security demonstration, marking ...

Battery operation During the demonstration period the battery system will provide several benefits to the electric grid:

NLR is collaborating with the San Diego Gas & Electric Co. to model a microgrid in Borrego Springs, California, and evaluate how a microgrid controller with advanced functionality ...

The facility offers the opportunity for demonstration of advanced solar photovoltaic and battery-energy storage technology concepts and assessment of the ...

Our [H2] Innovation Experience is North America's first-ever clean renewable hydrogen powered microgrid and home. This project demonstrates how net-zero gas made from renewable ...

Leader in promoting the greater use of DC and hybrid AC/DC microgrids & power systems. At the Grid Edge Theater, sponsored by Black & Veatch, we hosted 30 ...

Microgrid Company

Demonstration

Power

Each year, RE+ conducts a live demonstration of microgrids on its show floor. This year's demonstration will feature a fully operating "hybrid" bi ...
