It's an efficient energy storage device that integrates functions such as the power conversion system (PCS), step-up transformer (MV transformer), and distribution cabinet.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.

The core components of these systems include PCS, lithium-ion batteries and energy management systems. These "turnkey" ESS ...

This integrated energy storage solution widely used in power systems, industrial, and commercial applications. All-in-one design, store the leading brands of 19" ...

DH800Y is a new-generation fully liquid-cooled, modular energy storage system featuring a 690V medium-voltage grid connection solution. Each cabinet has a capacity of up to 836 kWh and ...

This Energy Storage Hybrid PCS Cabinet: A versatile solution for industrial and commercial energy storage. Seamlessly integrates grid-connected and off-grid ...

125kW / 261kWh Liquid-Cooled AC& DC Integrated Energy Storage Cabinet. Product Advantages. Flexible configuration. ·Integrate PCS function, eliminate external inverter equipment, save space ...

Model: IYP-50KWh+30KW Rated energy: 50KWh Rated power: 30KW AC voltage: 400Vac/230Vac MPPT voltage: 200-850VDC Communication method: ...
