Multiple problems on Windows 7. Original Title: Registry troubleshooting not working I am having big time issues with my registry files. Comand doesnt recognise the files. The files are there ...

Ok! Maybe it is allready posted somewhere but I am having a really tough time with changing the background image for the logon screen. I have a dual boot system running Windows 7 ...

Note I've tried multiple cables and inputs on the TV also, all of which work fine with other devices. When using HDMI, I can see POST screen and Windows loading screen fine, as well as ...

The HDMI port on the TV works fine as it can receive a signal from a digital set top box. The two dvi ports and HDMI port on my graphics card (gtx660) work also as tested with my primary ...

I have read several articles on re-installing and/or repairing Windows 7 Home 64-bit and i have not been successful. I have created in the past a. System Repair disk and b. Macrium boot disk ...

Mijn PC is aangeschaft met een OEM versie Windows 7 Pro. Nu heb ik een open licentie Windwos 7 pro aangeschaft met de intentie het OS opnieuw te installeren, en dan te kiezen voor XP. Echter, ik krijg

I've gone as far as to deleting all of the game folders on my desktop, ran the above batch commands, set the Max Cached Icons string to 1024, rebooted, recreated the game folders on the ...

I have bought a new laptop with windows 7 installed and then restored my data from external disc choosing the option "restore to original location". After the restoring process I got a ...
