Increase your solar power generation with our 545W solar modules. These modules have an efficiency of up to 21.1%, and the double-sided design utilizes the ...

The JA Solar 545W Mono is a high-powered solar panel that utilizes monocrystalline silicon technology to deliver efficient energy production. Here are some of the specifications for the JA Solar 545W ...

With 144 half-cut monocrystalline cells and a module efficiency of 21.1%, the JAM72D30-545/MB provides an optimal balance of power density, reliability, ...

For installers, the 545W rating hits the sweet spot between power density (350W/m²) and manageable module weight (28.5kg). The split junction box design allows flexible cabling configurations, adapting ...

In addition, it is committed to provide top notch EPC services, project development, rooftop solutions, solar water pumps and also in an Independent Power Producer.

Comprehensive guide to 545W solar panels including top models, specifications, installation requirements, and ROI analysis. Compare JA Solar, ...

JA Solar 545W MBB Half-cell Module -JAM72S30-545/MR, Assembled with MBB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature ...

[View / Download Jinko 545W panel specsheet.](#) [View / Download Jinko 545W panel warranty.](#)

Our PV modules are designed with better technology in mind, made from robust product components, under stringent quality control steps and high-tech manufacturing processes.

Assembled with 11BB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading effect on the ...
