pv magazine's global monthly edition offers authoritative reporting, market-driven analysis, and expert perspectives on the technologies, policies, and investments transforming global power...

A new project, Tehuacana Creek 1 Solar and BESS, adding 837 megawatts (MW) in Texas, is the largest solar photovoltaic project expected to come online in 2026; it will also offer an ...

Scatec said it plans to expand its investments in Egypt and deepen partnerships as part of the transition to a low-carbon economy. On Feb. 23, Scatec announced it had reached commercial ...

On Feb. 26, 2026, EVE Energy and ARCTECH signed a two-year strategic framework to deploy 12 GWh of energy storage--10 GWh of large-scale batteries and 2 GWh of complete ...

In a significant move to advance Saudi Arabia's renewable energy capabilities, Aramco is set to enhance its solar power infrastructure with a state-of-the-art Hybrid Energy Storage System ...

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

Its geographically diversified project development pipeline includes 27 GWp of solar and 80 GWh of battery energy storage capacity in various stages of development.

Teams from both sides engaged in in-depth discussions on the integrated development of future PV and energy-storage businesses and the upgrading of channel collaboration, jointly ...

Photovoltaic energy storage expands new channels

This signing aims to further integrate EVE Energy's underlying advantages in energy storage battery technology with Arctech's channel resources in photovoltaic tracker system integration and ...
