270Watts solar panel polycrystalline *System voltage Max 1000VDC *High cell efficiency PV solar panel with quality silicon material for long term output stability ...

Detailed profile including pictures, certification details and manufacturer PDF.

KF Solar Tech Group Corp. is a professional manufacturer and supplier of high ...

The 270W Solar PV Panel is a high-efficiency panel with a maximum voltage of 270 Watts. Made of polycrystalline silicon material in a sleek blue color, this compact panel with dimensions of 600 x ...

Types and Features of 270W Polycrystalline Solar Panels A 270-watt polycrystalline solar panel is a popular photovoltaic solution that combines cost-efficiency with reliable energy production. These ...

Advanced EVA (Ethylene Vinyl Acetate) encapsulation system with triple-layer back sheet meets the most stringent safety requirements for high-voltage operation. A sturdy, anodized aluminium frame ...

Advanced glass and solar cell surface texturing allow for excellent performance in low-light environments. Entire module certified to withstand high wind loads ...

These panels typically measure around 65" x 39" and weigh approximately 40-42 pounds, making them manageable for DIY installations while providing sufficient power for many ...

Polycrystalline solar panel 260W, 265W, 270W, 280W, 290W. Dimension: 1640mm*992mm*35mm; Weight: 18Kgs.

Equipped with high-performance Grade A solar cells with PID resistant technology. The Grade A silicone cells come integrated with a powerful reflector that redirects sunlight back from the cell.

Polycrystalline 270w solar panel size
