Discover Solar Containers offering efficient, portable solar power solutions ideal for off-grid applications, remote sites, and backup energy needs. Harness clean energy with easy installation ...

SolarBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

But I'm generating way more solar power than I can possibly use in this off-grid container, and so peak efficiency is less important to me.

Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.

If you're looking for the simplest and easiest way to build a reliable, high quality off-grid solar system that can power a container or tiny house, you've come to the right place.

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a ...

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4' x 8' palletized enclosure. All energy systems are equipped with a ...

All tied to solar panels, diesel generators, or hybrid energy systems, these solar container house solutions can be deployed within hours of arrival at ...

Solar container outdoor power supplementary power

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
