Swiss engineers are converting excess summer solar into hydrogen stored in repurposed natural gas caverns. Come winter, this becomes heating fuel - solving the seasonal mismatch that ...

Inlyte Energy, a manufacturer of iron-sodium battery energy storage systems, and NTS Colocation AG (NTS), part of NTS Group, a Swiss-based operator of carrier-neutral, Tier IV-certified ...

Swiss Data Center to Pilot Iron-Sodium Battery for Energy Storage The insatiable demand for data is placing unprecedented strain on the world's power grids. Data centers, the ...

Find out which storage systems are used on sites or large complexes in our new white paper "Energy storage systems for properties: Using renewable energy ...

Battery storage systems play an important role in this new energy system. Batteries can store electricity, especially when generation is high and demand is low. Conversely, they can supply ...

"With the launch of B-VAULT FlexGrid, we are introducing a compact, modular, easy-to-install, and regulation-ready platform tailored for Europe's ...

At Schindler Group's global headquarters in Ebikon (Canton of Lucerne), Energy Vault has deployed a 2 MW/2-hour B-VAULT FlexGrid system, the company's first installation in Switzerland.

These installations embody what B-VAULT FlexGrid was designed to do: deliver compact, compliant, and intelligent energy storage where it's needed ...

Innolith is an energy technology company that is pioneering an entirely new and safe battery technology platform. This will provide new ways of storing and using electricity for grid, ...

SwissSTES aims to reduce Switzerland's dependency on fossil fuels by pioneering seasonal thermal energy

Swiss new energy storage appliance

storage (STES) to become a net-zero carbon society. An interdisciplinary consortium ...
