The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

High-quality solar panels are designed to endure diverse weather conditions, including high winds and tropical storms, common in Cuba.

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

The ContainerBridge Solar Shade Kit offers a fast and efficient solution for creating a 20" x 20" solar array using two standard shipping containers as a foundation.

Discover high-quality solar containers designed for efficient energy storage and versatile portable power. Ideal for remote sites, emergency backup, and off-grid applications.

Convert shipping containers into mobile power stations equipped with generators or solar panels. These can be deployed to remote areas or disaster-stricken regions to provide temporary power solutions. ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, ...

? Our turnkey containerized solar system is bound for Cuba--delivering clean, reliable power to bridge energy gaps. Climate-adapted, pre-assembled: it cuts fossil fuel use, boosts ...

To tackle remote or temporary needs, our solar trailer and container step in. They deploy solar setups fast, delivering green energy production, storage, and ...

Waterproof Cuban Solar Container for Bridges

Durable and IP66 Waterproof- Constructed with galvanized steel for long-lasting durability and IP66-rated waterproofing, ensuring reliable outdoor ...
