Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

“Energy storage isn't just about storing power - it's about creating a flexible energy network that thinks,” says a senior engineer at SunContainer Innovations, the project's technology partner.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Did You Know? Their cabinets use recycled materials from old EV batteries, achieving 92% component reuse - a first in Central Asia.
