North Americans will need an adapter for the outlets and a transformer for the voltage when traveling to Slovenia. North Americans device plugs will not work ...

Are you traveling to Slovenia? Find out what power plugs and outlets are being used in Slovenia. Also, see if you need a travel adapter.

Since Slovenia uses Type C and F outlets, you'll need a Type A/B to Type C/F adapter. Additionally, as the voltage in North America is different, you may also need a voltage converter for devices that are ...

In conclusion, when traveling to Slovenia, it is advisable to buy a universal power adapter that supports Type C and Type F plugs. This will ensure that you can safely and conveniently use your electronic ...

Typically, type C plug sockets are not allowed to be installed in Slovenia: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted ...

This means that you will not need a converter or transformer but just a travel adaptor, because Slovenia operates on a 230V supply voltage, which is within the 110-240V range that the dual voltage ...

Do I Need A Power Adapter For Slovenia?Electricity in Slovenia - Voltage and FrequencyFrequently Asked QuestionsSlovenia uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: 1. Type C- The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries. Plugs of type E and F will also fit in a type C outlet. 2. Type F- Used in almos...See more on world-power-plugs .b\_ans .b\_mrs{ width:648px;contain-intrinsic-size:648px
